

# Meet our team

**Erin was born and raised in Maine, still living in the same town her family helped settle in 1736. Her Family has been farming their land for 4 generations going on 5. Now they have a large vegetable garden, and many fruit trees. In the Fall she does a lot of canning, and making jelly.**

Erin worked for 20 years at a retirement community in the Food & Beverage department as the Dining Room Manager, after the many years there, she came to Phil for Physical Therapy, where he was in need of a front desk person, they decided this position would better suit her needs.

Erin, her husband and son love the outdoors, in winter they enjoy the snow from shoveling to snowshoeing, and, snowboarding. Summers are spent at their camp on Long Lake, fishing, swimming, hiking, and floating on the water.
