

# Meet our therapists

**Maxwell Bieber DPT**

---

**Physical Therapist**

**Born and raised in Massachusetts, Max completed his Bachelor of Arts degree in Mathematics at Skidmore College in Saratoga Springs, NY in 2017 before attending University of New England in Portland, Maine for his Doctor of Physical Therapy degree where he graduated in 2023.**

He has an interest in treating orthopedic and musculoskeletal injuries through various manual therapy techniques and corrective exercises to improve movement patterns and address pain.

Max believes in addressing the whole person within the context of their aches, pains, and injuries and likes to work with people to help them move in whatever way is meaningful to them. Max believes in creating a positive, patient centered physical therapy experience through education and evidence-based care to help his patients to accomplish their goals and help to give them the tools they need to prevent their injuries from coming back.

Outside of the clinic, Max has always enjoyed exploring the outdoors with his wife, camping, hiking, and rock climbing.

---

“I believe in using evidence-based treatment strategies and education to empower people to move in whatever way is meaningful to them.”
